

Application No. : 10/074,318

**Amendment to the Claims:**

-- 21. (Amended) A method of replaying a portion of a video comprising the steps of:  
receiving, during a playing of a video, ~~and from a user actuation of a single replay request control element,~~ a replay request to replay a portion of the video, the portion of the video being responsive to a preestablished amount of time;

changing, responsive to the replay request and to a preestablished audio preference, an audio of the video; and

playing, responsive to the replay request, the portion of the video and the changed audio ~~from a replay position in the video preceding an initial position in the video at which the replay request was received;~~ and

discontinuing, responsive to the replay request, the playing of the changed audio.

22. (Amended) The method of claim 21 wherein the changed audio is selected from the group consisting of the audio at an increased volume, the audio with an increased dialog audio volume, the audio with an increased dialog audio volume relatively to a background audio volume, and the audio utilizing an alternative dialog audio language; and wherein the ~~replay position precedes the initial position by a period of replay time that~~ portion of the video is cumulative responsive to a successive replay request.

23. (Amended) The method of claim 21 wherein the changed audio is selected from the group consisting of the audio at an increased volume, the audio with an increased dialog audio volume, the audio with an increased dialog audio volume relatively to a background audio volume, and the audio utilizing an alternative dialog audio language; ~~and wherein, responsive to the replay request, a playing of subtitles is enabled contemporaneously with the playing of the changed audio.~~

24. (Amended) The method of claim 21 wherein the ~~replay position precedes the initial position by a period of replay time that is responsive to a preestablished replay preference and~~ portion of the video is also responsive to information defining segments of the video.

25. (Amended) A method of replaying a portion of a video comprising the steps of:  
receiving, during a playing of a video, a ~~replay~~ request to replay a portion of the video, the portion of the video being responsive to a preestablished amount of time;  
~~skipping, responsive to the replay request and a preestablished replay preference, the video to a replay position;~~  
changing, responsive to the replay request and to a preestablished audio preference, an audio of the video;  
enabling, responsive to the replay request, a playing of subtitles;  
playing, responsive to the replay request ~~and to the replay position~~, the portion of the video, and the changed audio, and the subtitles; and  
discontinuing, responsive to the replay request, the playing of the changed audio.

26. (Amended) The method of claim 25 wherein the subtitles are in a different language than the language of the audio ~~changed audio is selected from the group consisting of the audio at an increased volume, the audio with an increased dialog audio volume, the audio with an increased dialog audio volume relatively to a background audio volume, and the audio utilizing an alternative dialog audio language.~~

27. (Amended) The method of claim 25 wherein the ~~replay position precedes an initial position in the video, at which the replay request was received, by a period of replay time that is responsive to the preestablished replay preference and~~ portion of the video is also responsive to information defining segments of the video.

28. (Amended) The method of claim 25 ~~wherein the preestablished replay preference is a user preestablished replay preference; and wherein the changed audio comprises utilizing an alternative dialog~~ changing the audio language.

29. (Amended) The method of claim 25 wherein the changed audio comprises increasing a dialog audio volume relatively to a background audio volume; ~~and wherein, responsive to the replay request, a playing of subtitles is enabled contemporaneously with the playing of the~~

changed audio.

30. (Amended) A system capable of replaying a portion of a video comprising:  
a user interface means for receiving, during a playing of a video, a ~~replay~~ request to replay a portion of the video, the portion of the video being responsive to a preestablished amount of time;  
and  
~~a random accessing means for skipping, responsive to the replay request and a preestablished replay preference, the video to a replay position; and~~  
a processing means for changing, responsive to the replay request and to a preestablished audio preference, an audio of the video; playing, responsive to the replay request ~~and to the replay position~~, the portion of the video and the changed audio; and discontinuing, responsive to the replay request, the playing of the changed audio.

31. (Previously submitted) The system of claim 30 wherein the changed audio is selected from the group consisting of the audio at an increased volume, the audio with an increased dialog audio volume, the audio with an increased dialog audio volume relatively to a background audio volume, and the audio utilizing an alternative dialog audio language.

32. (Amended) The system of claim 30 wherein, responsive to the replay request, a playing of subtitles is enabled for playing the subtitles responsive to the replay request and the subtitles ~~contemporaneously with the playing of the changed audio.~~

33. (Amended) The system of claim 30 wherein the ~~replay position precedes an initial position in the video, at which the replay request was received, by a period of replay time that is responsive to a system preestablished replay preference and~~ portion of the video is also responsive to information defining segments of the video.

34. (Amended) The system of claim 30 wherein the ~~replay position precedes an initial position in the video, at which the replay request was received, by a period of replay time that~~ portion of the video is cumulative responsive to a successive replay request ~~and to information defining segments of the video; and wherein, responsive to the replay request, a playing of~~

~~subtitles is enabled contemporaneously with the playing of the changed audio.~~

35. (Amended) A method of replaying a portion of a video comprising the steps of:  
receiving, during a playing of a video, a ~~replay~~ request to replay a portion of the video, the portion of the video being responsive to a preestablished amount of time;  
~~skipping, responsive to the replay request, the video to a replay position;~~  
changing, responsive to the replay request and to a preestablished audio preference, an audio of the video, the changing comprising utilizing a commentary audio;  
playing, responsive to the replay request ~~and to the replay position~~, the portion of the video and the changed audio; and  
discontinuing, responsive to the replay request, the playing of the changed audio.

36. (Amended) The method of claim 35 wherein the ~~replay~~ portion of the video ~~position~~ is responsive to information defining segments of the video.

37. (Amended) The method of claim 35 wherein, responsive to the replay request, a playing of subtitles is enabled for playing the subtitles responsive to the replay request ~~contemporaneously with the playing of the changed audio.~~

38. (Amended) A system capable of replaying a portion of a video comprising:  
a user interface means for receiving, during a playing of a video, a ~~replay~~ request to replay a portion of the video, the portion of the video being responsive to a preestablished amount of time;  
and  
~~a random accessing means for skipping, responsive to the replay request, the video to a replay position;~~  
a processing means for changing, responsive to the replay request and to a preestablished audio preference, an audio of the video, the changing comprising utilizing a commentary audio;  
playing, responsive to the replay request ~~and to the replay position~~, the portion of the video and the changed audio; and discontinuing, responsive to the replay request, the playing of the changed audio.

39. (Amended) The system of claim 38 wherein the ~~replay~~ portion of the video position is responsive to a ~~preestablished replay preference~~ and to information defining segments of the video.

40. (Amended) The system of claim 38 wherein the ~~replay position is responsive to a preestablished replay preference; and wherein, responsive to the replay request, a playing of subtitles is enabled contemporaneously with the playing of the changed audio~~ portion of the video is cumulative responsive to a successive replay request. --
